Nighttime Lane Restrictions Scheduled Next Week on Two State Highways for Resurfacing in Delaware County

King of Prussia, PA – Nighttime lane restrictions are scheduled next week on Ridley Creek Road in Upper Providence Township and Westtown Road in Thornbury Township, for milling and paving as part of a \$2.6 million project to repair and resurface 10 miles of state highway in Delaware County, the Pennsylvania Department of Transportation (PennDOT) announced today.

The work schedule is:

- Monday, April 24, through Thursday, May 4, from 6:00 PM to 6:00 AM, lane restrictions are scheduled on Ridley Creek Road between Bishop Hollow Road/Barren Road and U.S. 1 (Baltimore Pike); and
- Tuesday, April 25, through Thursday, May 4, from 6:00 PM to 6:00 AM, lane restrictions are scheduled on Westtown Road from South Concord Road/Westtown Road to just north of Meadowcroft Road.

All traffic will be controlled by flagging. During these operations, there will be no lane restrictions scheduled on Saturdays.

Motorists are advised to allow extra time when traveling through these work zones because slowdowns will occur. The contractor's schedule is dependent on the weather.

The additional state highways scheduled for resurfacing under this contract include:

- Eagle Road/Glendale Road between Springfield Road and Route 3 (West Chester Pike) in Springfield, Haverford and Marple townships;
- Wayne Avenue from Conestoga Road to just north of Woodsworth Court in Radnor Township;
- Springfield Road between MacDade Boulevard and Netherwood Drive in Aldan, Clifton Heights and Collingdale boroughs, and Springfield and Upper Darby townships; and
- Amosland Road/Holmes Road between U.S. 13 (Chester Pike) and MacDade Boulevard in Norwood Borough and Ridley Township.

All work on the project is expected to be completed in late October.

Under this improvement project, PennDOT will mill off the existing roadway surface and repave the state highways with new asphalt. The new pavement will seal the roadways and provide motorists with a smoother riding surface.

Highway Materials, Inc. of Flourtown, Montgomery County, is the general contractor on the \$2,570,904 project, which is financed with 100 percent state funds from Act 89, Pennsylvania's Transportation Plan.

For more information on projects occurring or being bid this year, those made possible by or accelerated by Act 89, or those on the department's Four and Twelve Year Plans, [visit www.projects.penndot.gov](http://www.projects.penndot.gov).

Motorists can check conditions on more than 40,000 roadway miles by visiting www.511PA.com. 511PA, which is free and available 24 hours a day, provides traffic delay warnings, weather forecasts, traffic speed information and access to more than 825 traffic cameras.

511PA is also available through a smartphone application for iPhone and Android devices, by calling 5-1-1, or by following regional Twitter alerts accessible on the 511PA website.
