Dear Valued Customer:

Every day, PECO provides safe and reliable energy for our customers and the communities we serve. As part of our commitment, we're replacing our existing natural gas equipment to enhance service in your area. This includes installing new underground pipe, which is more durable, enhances safety and improves service reliability.

Work is expected to begin April in the area of Greenhill Rd from State Rd to Sandy Bank Rd, from 0900-1500. This project is expected to be completed in 2 Months and roadway repaving will begin shortly after.

While you may or may not be a PECO natural gas customer, we recognize that this project may impact you as you drive through the area, and we appreciate your patience. You will be receiving additional communication materials in the coming weeks with more details about our project if work is planned for your street or property.

For more information about our natural gas enhancement work, please visit www.peco.com/gasinvestments.

Thank you in advance for your patience as we work to provide safe and reliable service to you and your neighbors.

Ronald Bradley
Vice President, Gas Operations
